

International donor shipping program

An experienced leader in testing for the tissue, stem cell, cord blood and reproductive donor communities, ViroMed is an FDA-registered laboratory for donor screening with nationally recognized expertise in infectious disease testing.

ViroMed Laboratories

Provides personalized service and support for international donor shipping to most areas of the world.

- Dedicated logistics staff to manage the international shipping process
- Individualized shipment monitoring, tracking, and notification
- Decades of experience in international specimen shipping
- Program includes international forms and commercial invoices, along with all of the necessary supplies for donor testing
- Easy-to-use NanoCool™ 2°C – 8°C cooling technology activated by pressing a button
- Instructions available in English, Spanish or Chinese
- Specialized test requisition form and comprehensive donor testing menu
- Donor convenience, direct shipment to ViroMed for testing, and rapid result turnaround time

Overview

- Email Viomed_Acctmgmt@Labcorp.com for information or to request an international shipper
- ViroMed offers a single collection kit for 1 donor and a dual collection kit for 2 donors
- ViroMed must receive notification of an international donor collection at least 10 business days prior to a scheduled collection date in order to allow enough time for processing and shipping
- Collection kits are shipped to their destination via FedEx International Economy® shipping
- After collection, kits are shipped back to ViroMed via FedEx International Priority® shipping
- Most areas of the world are serviceable, but ViroMed cannot guarantee service to all areas. Please contact ViroMed account management at Viomed_Acctmgmt@Labcorp.com or available destinations
- Specimens should be collected and shipped Monday - Wednesday

For questions, contact ViroMed Account Management at Viomed_Acctmgmt@Labcorp.com
