

July 2025

Dear Valued Client,

ViroMed Laboratories no longer performs in-house confirmatory HTLV I/II Immunoblot testing for cadaveric samples. As an interim step before no longer accepting requests for this testing, we are currently sending these specimens to Creative Testing Solutions (CTS) in Tempe, Arizona.

Effective September 1, 2025, we will no longer offer this service, and any requests for HTLV-I/II Immunoblot testing (Test No. 138984) on cadaveric samples will be rejected. However, we will continue to perform HTLV-I/II screening (Test No. 139412) for cadaveric samples, as will both screening and confirmatory testing for living donor samples.

We appreciate the opportunity to serve your testing needs. Please contact ViroMed Account Management at 800-582-0077 or ViroMed_Acctmgmt@labcorp.com if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Ajay Grover".
